**SUPPLEMENTAL INFORMATION DISCLOSURE
STATEMENT PURSUANT TO 37 C.F.R. §§1.56, 1.97 and 1.98**

Sir:

Applicant, in order to meet her duty of disclosure, set forth at 37 C.F.R. §1.56, submits herewith those additional references which she deems relevant to the claims of the present application.

The relevant additional reference is as follows:

1. CH 677429 A5
2. U.S. Patent No. 5,110,608 (to Cherukuri et al.)
3. International Publication No. WO 98/04156
4. International Publication No. WO 92/08370

CERTIFICATE OF MAILING UNDER 37 C.F.R. §1.8(a)

I hereby certify that this correspondence is being deposited with the United States Postal Service as first class mail in an envelope addressed to the Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450 on August 6, 2007. 08/08/2007 ATRINH 00000035 10787013 100.00 0P

Dated: August 6, 2007

5. International Publication No. WO 00/64281
6. New Zealand Patent No. 248 426

References 1-3 noted above were cited in an International search report in connection with a corresponding international application. A copy of the search report is enclosed as well. It is noted that EP 0447359 cited in the search report was made of record in the Information Disclosure Statement filed on June 28, 2004 (citing its corresponding U.S. counterpart, namely U.S. Patent No. 5,059,428).

The abstract of CH 677 429 reads in translation: "A chocolate with reduced caloric value contains, instead of sucrose, a mixture of from 10 to 40% of maltitol and 15 to 45% polydextrose, calculated on the total weight of the chocolate." The description states that it was noted that sucrose in chocolate could be replaced by a combination of polydextrose and maltitol in a certain ratio and that this mixture surprisingly had a higher sweetness than expected. It should be noted that maltitol is a polyhydric alcohol and not a sugar compound.

Reference 4 was cited in the subsequently issued Written Opinion regarding the corresponding International application. A copy of the Written Opinion is also being provided. It is noted that the Written Opinion also additionally cited WO 00/40101. This reference is already of record, having been cited in the Information Disclosure Statement dated June 28, 2004. For completeness, applicant is also submitting a copy of the International Preliminary Report on Patentability issued in connection with the corresponding international application.

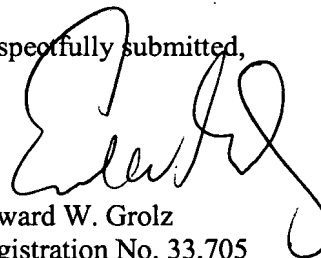

References 5 and 6 were cited in the prosecution of the corresponding New Zealand application. Copies of the two office actions citing these references are being provided. It is noted that in the office actions, international publication no. WO 00/10101 is cited. This publication is totally unrelated to the subject invention. It has been determined that the citation should have been WO 00/40101, said reference already of record having been cited in the original Information Disclosure Statement dated June 28, 2004. The remaining references cited in the New Zealand office actions are also of record.

Applicant respectfully requests that the above-mentioned references be made of record in the file of the present application. To that end, applicant submits herewith the aforementioned references and the completed Form PTO-1449, setting forth these references.

A petition together with the required petition fee is being filed with this supplemental information disclosure statement. Consideration of this Information

Disclosure Statement is respectfully requested, since the information provided herein may be material to the patentability of the subject application as defined in 37 C.F.R. §1.56.

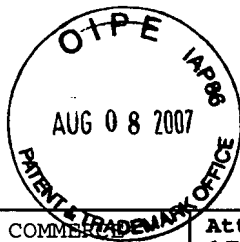

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Edward W. Grolz', written over the text 'Respectfully submitted,'.
